Skilled Nursing Facilities

Overview

Two hundred four of 208 licensed skilled nursing facilities, 14 intermediate care facilities for the intellectually disabled, 8 of 9 psychiatric residential treatment facilities and 189 of 200 licensed personal care homes responded to the 2019 survey. The data in this report is based upon the information supplied by these respondents. Historical data for all four categories for years 1961-2016 is in a separate table found on the Mississippi State Department of Health website under Health Facilities, Reports Archive.

Eighty-one counties are served by nursing homes. This coverage represents 98.8% of all 82 Mississippi counties leaving 1.2% or 1 county, Issaquena County, without nursing home facilities of some type.

Since 1981, personal care home data has been shown and discussed separately to give a clearer picture of institutions for the aged or infirm in Mississippi. Also, the classification was changed in 1981 making comparisons of data collected before and after difficult. Classifications changed again in 1989. Now institutions for aged or infirm include facilities licensed as nursing homes (e.g., skilled nursing facilities and nursing facilities), intermediate care facilities for the intellectually disabled, personal care homes and psychiatric residential treatment facilities.

Table 1 shows there were 19,064 skilled nursing facility beds in 2019. This figure represents a decrease of 115 beds from 2016.

The total patient census on December 31, 2019, was 15,818.07. This represents a statewide skilled nursing facility occupancy rate of 87.37%.

The total number of patients served during the year, 41,230, was a decrease of 20 from 2016. New admissions to nursing homes increased by 420 patients.

Ownership
