The Youth Risk Behavior Survey (YRBS-M) was completed by 1,580 students in 35 public middle schools in Mississippi during the spring of 2001. The school response rate was 70%, the student response rate was 89%, and the overall response rate was 62%. The results are representative of all students in grades 6-8. The weighted demographic characteristics of the sample are as follows:

Students completed a self-administered, anonymous, 50-item questionnaire. Survey procedures were designed to protect the privacy of students by allowing for anonymous and voluntary participation. Local parental permission procedures were followed before survey administration.

The YRBS is one component of the Youth Risk Behavior Surveillance System developed by the Centers for Disease Control and Prevention in collaboration with representatives from 71 state and local departments of education and health, 19 other federal agencies, and national education and health organizations. The Youth Risk Behavior Surveillance System was designed to focus the nation on behaviors among youth related to the leading causes of mortality and morbidity among both youth and adults and to assess how these risk behaviors change over time. The Youth Risk Behavior Surveillance System measures behaviors that fall into six categories:

1. Behaviors that result in unintentional injuries and violence;
2. Tobacco use;
3. Alcohol and other drug use;
4. Sexual behaviors that result in HIV infection, other sexually transmitted diseases, and unintended pregnancies;
5. Dietary behaviors; and
6. Physical activity.

More information about the Youth Risk Behavior Surveillance System can be obtained from [http://www.cdc.gov/yrbss](http://www.cdc.gov/yrbss).
Mississippi Middle School Survey
Summary Findings

Percentage of students who:

- Rarely or never wore a seatbelt when riding in a car: 21.4%
- Ever rode with a driver who had been drinking alcohol: 46.6%
- Ever carried a weapon: 38.7%
- Ever attempted suicide: 10.9%
- Smoked cigarettes during the past 30 days: 16.1%
- Ever drank alcohol: 53.3%
- Ever used marijuana: 16.7%
- Ever had sexual intercourse: 31.7%
- Did not participate in vigorous physical activity three or more days during the past seven days: 33.8%
- Were overweight*: 16.2%

*See the corresponding summary table for detailed explanation of data.
2001 Youth Risk Behavior Survey Results

Mississippi Middle School Survey
Summary Findings

Percentage of students who:

- Sometimes, most of the time, or always wore a seatbelt when riding in a car: 78.6%
- Did not ever ride with a driver who had been drinking alcohol: 53.4%
- Did not ever carry a weapon: 61.3%
- Did not ever attempt suicide: 89.1%
- Did not smoke cigarettes during the past 30 days: 83.9%
- Did not ever drink alcohol: 46.7%
- Did not ever use marijuana: 83.3%
- Never had sexual intercourse: 68.3%
- Participated in vigorous physical activity three or more days during the past seven days: 66.2%
- Were not overweight*: 83.8%

*See the corresponding summary table for detailed explanation of data.
2001 YOUTH RISK BEHAVIOR SURVEY RESULTS

Mississippi Middle School Survey
Summary Findings

Number of students in a class of 30 who:

- Rarely or never wore a seatbelt when riding in a car: 6.4%
- Ever rode with a driver who had been drinking alcohol: 14.0%
- Ever carried a weapon: 11.6%
- Ever attempted suicide: 3.3%
- Smoked cigarettes during the past 30 days: 4.8%
- Ever drank alcohol: 16.0%
- Ever used marijuana: 5.0%
- Ever had sexual intercourse: 9.5%
- Did not participate in vigorous physical activity three or more days during the past seven days: 10.1%
- Were overweight*: 4.9%

*See the corresponding summary table for detailed explanation of data.
2001 Youth Risk Behavior Survey Results

Mississippi Middle School Survey
Summary Findings

Number of students in a class of 30 who:

- Sometimes, most of the time, or always wore a seatbelt when riding in a car: 23.6
- Did not ever ride with a driver who had been drinking alcohol: 16.0
- Did not ever carry a weapon: 18.4
- Did not ever attempt suicide: 26.7
- Did not smoke cigarettes during the past 30 days: 25.2
- Did not ever drink alcohol: 14.0
- Did not ever use marijuana: 25.0
- Never had sexual intercourse: 20.5
- Participated in vigorous physical activity three or more days during the past seven days: 19.9
- Were not overweight*: 25.1

*See the corresponding summary table for detailed explanation of data.
