# The Mississippi Youth Tobacco Survey 

## 2004

Kathleen Gresham<br>Robert McMillen, PhD

Social Science Research Center
Mississippi State University

## Contents

Methods ..... 4
Response rates ..... 5
Ever cigarette smokers ..... 6
Current cigarette smokers ..... 7
Frequent cigarette smokers ..... 8
Ever smoked cigars ..... 9
Current cigar smokers ..... 10
Frequent cigar smokers ..... 11
Current pipe smokers ..... 12
Frequent pipe smokers ..... 13
Ever smoked bidis ..... 14
Current bidi smokers ..... 15
Frequent bidi smokers ..... 16
Ever used smokeless tobacco ..... 17
Current smokeless tobacco users ..... 18
Frequent smokeless tobacco users ..... 19
Students who smoked cigarettes on school property in the past 30 days ..... 20
Students under 18 who smoked cigarettes on school property in the past 30 days ..... 21
Believe people can get addicted to tobacco ..... 22
Smokers who believe you can get addicted to tobacco ..... 23
Nonsmokers who believe you can get addicted to tobacco ..... 24
Think it is safe to smoke for a year or two ..... 25
Think smoking makes young people look cool ..... 26
Think young people who smoke have more friends ..... 27
Schools should prohibit students from wearing clothing or bringing gear with tobacco brand logos to school ..... 28
Students should be punished for violating school rules against smoking ..... 29
Persons under age 18 should be punished for possession and use of tobacco products ..... 30
Smokers who live with a smoker ..... 31
Never-smokers who live with a smoker ..... 32
One or more of four closest friends smokes ..... 33
Household smoking ban ..... 34
Household smoking ban when children are present ..... 35
Persons under age 18 are not allowed to smoke in home ..... 36
Believe it is not okay to smoke in front of children ..... 37
Parents should not allow children under age 18 to smoke ..... 38
Bothered by other people's cigarette smoke ..... 39
Believe smoking should not be allowed in indoor shopping malls ..... 40
Believe smoking should not be allowed in convenience stores ..... 41
Believe smoking should not be allowed in fast food restaurants ..... 42
Believe smoking should not be allowed in restaurants ..... 43
Believe smoking should not be allowed in outdoor parks ..... 44
Current cigarette smokers who want to stop smoking ..... 45
Current cigarette smokers who have tried to quit at least once in the past 12 months ..... 46
Ever smokers who have ever participated in a program to help quit using tobacco ..... 47
Smokers who have ever participated in a quit program ..... 48
Taught in school about the dangers of tobacco use ..... 49
Participated in a community event to discourage tobacco use ..... 50
Have discussed with a parent the dangers of tobacco in past 12 months ..... 51
People are more likely to smoke if their parents smoke ..... 52
Current smokers whose parents know that they smoke ..... 53
Saw or heard anti-smoking commercials in past 30 days ..... 54
Tobacco ads try to get young people to start smoking ..... 55
Think smoke from other people's cigarettes is harmful to them ..... 56
Smoker who was in the same room as someone who was smoking during the past seven days ..... 57
Never smoker who was in the same room as someone who was smoking during the past seven days ..... 58
Smoker who was in the same car as someone who was smoking in the past seven days ..... 59
Never smoker who was in the same car as someone who was smoking in the past seven days ..... 60
Never smokers who will definitely not smoke cigarettes in the next year ..... 61
Never smokers who will definitely not smoke cigarettes if one of their best friends offered them a cigarette ..... 62
Never smokers who are not susceptible to starting smoking ..... 63
Current smokers who usually obtain their cigarettes from a store ..... 64
Current smokers who usually obtain their cigarettes from a vending machine ..... 65
Current smokers who usually obtain their cigarettes by giving money to someone else to buy them ..... 66
Current smokers who usually obtain their cigarettes by borrowing them ..... 67
Current smokers who usually obtain their cigarettes from someone older than 18 ..... 68
Current smokers who usually obtain their cigarettes by taking them ..... 69
Current smokers who usually obtain their cigarettes by some other way ..... 70
Ever smokers who smoked their first whole cigarette before age 11 ..... 71
Ever smokers who have smoked 100+ cigarettes in their lifetime ..... 72
Current smokers who smoked 6+ cigarettes on the days that they smoked ..... 73

## Methods

## Sample Design and Survey Administration

The survey used a multi-stage sample design with public schools selected with a probability proportional to enrollment size. Classrooms were randomly chosen within selected schools. All students in selected classes were eligible for participation. Data were collected by means of a questionnaire, self-administered during the mid-morning classes to avoid eliminating students who arrived late. Survey procedures were designed to protect the students’ privacy by allowing for anonymous and voluntary participation. Students completed the anonymous and confidential self-administered questionnaire.

## Editing, Weighting , and Initial Analysis of Data

The Research Triangle Institute and the CDC's Office of Smoking and Health provided technical assistance with the processing and weighting of the data. A weighting factor was applied to each student record to adjust for non-response at the school, class, and student levels. SUDAAN (Software for the Statistical Analysis of Correlated Data) was used to calculate standard errors for estimates and 95 percent confidence intervals. Weight adjustments were made for the following:

```
Weight \(=\mathrm{W} 1\) * W 2 * f1 * f 2 * f3 * f 4
\(\mathrm{W} 1=\) inverse of the probability of selecting the school
W2 = inverse of the probability of selecting the classroom within the school
f 1 = a school-level non-response adjustment factor calculated by school size (small,
medium, large)
f2 \(=\) a class adjustment factor calculated by school
f3 = a student-level non-response adjustment factor calculated by class
\(\mathrm{f} 4=\mathrm{a}\) post stratification adjustment factor calculated by gender and grade
```

## Response Rates

Mississippi Public Middle Schools 2004
Schools - 79.63 \% 43 of the 54 sampled schools participated.
Students - 83.48 \% 3,038 of the 3,639 sampled students completed usable questionnaires
Overall response rate $-79.63 \%$ * $83.48 \%=66.48 \%$
Mississippi Public High Schools 2004
Schools - 84.0 \% 42 of the 50 sampled schools participated.
Students - 72.29 \% 2,525 of the 3,493 sampled students completed usable questionnaires
Overall response rate $-84.0 \%$ * $72.29 \%=60.72 \%$
Mississippi Private Middle Schools 2004
Schools - 62.07 \% $\quad 18$ of the 29 sampled schools participated.
Students - 90.97 \% 846 of the 930 sampled students completed usable questionnaires
Overall response rate $-62.07 \%$ * $90.97 \%=56.46 \% *$
Mississippi Private High Schools 2004
Schools - 67.86 \% $\quad 19$ of the 28 sampled schools participated.
Students -79.86 \% $\quad 1,114$ of the 1,395 sampled students completed usable questionnaires
Overall response rate $-67.86 \%$ * $79.86 \%=54.19 \% *$

* Note that unweighted estimates are used for the private schools because the overall response rate was lower than $60 \%$

## Ever Cigarette Smokers

Have you ever smoked cigarettes daily, that is, at least one cigarettes every day for 30 days?
\% who responded "Yes"
